#Projects and Experiences

Internship -DreamBig IT Solution
24,Mar,2023 - Sep,2023
Backend Developer, working on Python/Django and Machine Learning

Full Stack Project - Textutils
https://github.com/Shruti-panchal/textutiles2
I created a website using Python and created its backend using Django and implemented Material UI and Bootstrap in this. I implemented basic forms, Functional components, and cards in this.
Formulated a way to play or to manipulate the grammar skills of a person.

Code Mentor
I guided a student by setting goals aligned with their ability. Assist with their weekly learning goals and assignments. Taught C, HTML, CSS and JavaScript. Helped in implementing these skills in the real world. Recommended projects to develop skills.

Full Stack Project - Short&Q
https://github.com/Shruti-panchal/url-shortner
Created a full stack project in which I used Django for the backend and HTML, CSS, Javascript for the front-end. In which we can shorten the long URLs to open the same page or websites.
Formulated it to save time.

Working on the functionality which will generate the QR code of the same shorten URL to open it through the code as well, now I created it using google tools.
I used sqlite for the database and created an admin to store the URLs data.
